

WCO Framework of Standards

Security and Facilitation of Global Trade

Global Transshipment and Enforcement Seminar

July 18-21, 2006

U.S. Customs and
Border Protection

Objectives and Principles

- Establish standards that provide supply chain security and facilitation to promote certainty and predictability.
- Enable integrated supply chain management for all modes of transportation.
- Enhance the roles and functions of Customs administrations.
- Strengthen cooperation between administrations.
- Strengthen cooperation between Customs and Business.
- Promote the seamless movement of goods through secure international supply chains.

Four Core Elements

- Harmonized advanced electronic cargo information requirements.
- Consistent risk management approach to address security threats.
- Customs inspections in the origin or transit country based on the request of the destination Customs administration.
- Benefits for businesses that meet minimal supply chain security standards.

U.S. Customs and
Border Protection
