

The U.S. Department of State  
Export Control and Related Border  
Security (EXBS) Program and the  
Government of the  
United Arab Emirates  
present the

Park Hyatt Hotel  
Dubai

7 - 9 March 2011

*The seminar will advance development of effective measures against proliferation of weapons of mass destruction and related technologies by fostering implementation and enforcement of international norms and national measures regulating export, transit, and transshipment of dual-use goods.*

*Presentations will focus on identifying technically viable solutions for regulating transshipment trade in dual-use items from government and industry perspectives. The participants will have the opportunity to network and share best practices in trade security and trade facilitation, effective industry outreach and compliance strategies, and practical enforcement techniques.*
